TO THE HONORABLE THE COLONIAL SECRETARY.

Legislative Council Office, Hobart Town, May 30, 1873.

SIR,

I HAVE the honor to forward to you the Statistics of this Colony for the past year 1872.

The first division, relating to

I.—POPULATION,

principally consists of a Summary of the Census of 1870, the results of which were examined in detail in previous reports, and therefore presents but few points requiring to be noticed here.

(204 7 10
102 355

Population.

The estimated Population on 31st December, 1872, was 102,925, consisting of males 54,418, females 48,507. On the last day of the previous year the total Population was 101,785. The increase in 1872 was therefore 1140, or 1·12 per cent.

The increase by excess of Births over Deaths was 1602, namely males 694, females 908, being 96 less than in the previous year.

Immigration.

During the year 1872 there were introduced under what is known as the "Bounty System" of Immigration 199 persons, of whom 182 were from Germany, 10 from England, and 7 from Ireland.

The number of other persons who arrived in the Colony during the year was 5665, or 1017 more than in 1871.

Emigration.

The number of persons who left the Colony in 1872 is returned as 6127, or 801 more than in 1871.

Subtracting the Arrivals from the Departures, we find that there was a loss to the population by an excess of the latter over the former, of 462.

In the five years ending in 1870 there was, as shown in the report for that year, an alternate increase and decrease by migrations; but since 1870 the balance has been on the wrong side.

II.—TRADE, COMMERCE, AND NAVIGATION.

Imports.

The value of the Imports in 1872 is stated to have been £807,182, being an increase upon those in 1871 of £29,095, being at the rate of 3·74 per cent. In the previous year there was a decrease of £14,829. In only two others (1866 and 1869) out of the last seven years was there an increase, such increase in 1869 being caused by a large importation of plant for the Launceston and Western Railway.

The rate per head of population in 1872 was £7 16*s.* 10½*d.*; the rate in 1871 having been £7 12*s.* 6½*d.*

The following are some of the principal articles imported in those two years:—

ARTICLES.	VALUE.		ARTICLES.	VALUE.	
	1872.	1871.		1872.	1871.
Clothing, &c.*:	£	£		£	£
Apparel and Slops	225,274	199,938	Live and Dead Stock	13,844	23,940
Blankets and Rugs	4680	6092	Machinery and Mills	4898	5413
Boots and Shoes	17,632	18,953	Liquors †:		
Hats and Caps	1357	2127	Malt	4583	7481
Woollens	5382	6407	Wine	9102	7330
Bagging, Corn Sacks, Gunny Bags, Wool Sacks, and Canvas	20,313	18,693	Spirits and Cordials	19,954	21,608
Candles, Suet and Tallow	7870	4329	Manure	12,529	17,214
Carpets and Rugs	6176	6080	Medicines and Drugs	7495	7270
Coals and Coke	8735	10,680	Oils (not including Whale)	8978	12,200
Coin	40,000	—	Oilmen's Stores	5451	4361
Earthen and Glassware	4955	8331	Railway Plant	17,855	9539
Fruits, dried	4213	7350	Room and other Papers	6338	7138
Hides and Skins	10,881	7557	Rope and Twine	5160	4700
Ironmongery, Agricultural Implements, Castings, Iron Fencing, Hardware, Cutlery, and Plated Ware	38,052	44,387	Stationery and Printed Books	18,506	14,069
Iron and Tin	17,502	15,222	Sugar	115,818	121,902
Woodware	6800	6405	Tea	33,441	40,370
			Tobacco, Cigars and Snuff	12,716	13,058
			TOTAL	£716,490	680,144

It will be seen that there is an increase of £20,808 in Clothing; while there is a decrease of £6084 in Sugar; of £6929 in Tea; of £342 in Tobacco, Cigars, and Snuff; and of £10,096 on Stock, live and dead.

On Liquors there is a decrease of £2780.

On the whole of these articles there is an increase of £36,346, but this is due to an import of £40,000 worth of Coin in 1872; so that, excluding this, there would be a decrease of £3654.

It is hardly necessary, perhaps, to mention, what is so familiar to every one who is acquainted with the Customs returns, that the values above shown are not those of the quantities taken out for home consumption, but merely of those imported during the year.

The value of the Imports derived from each country for the two last years is shown below:—

COUNTRIES.	VALUE OF IMPORTS.	
	1872.	1871.
	£	£
United Kingdom	309,199	272,797
Victoria	359,050‡	407,294
New South Wales	55,715‡	34,545
Queensland	12,380	7785
New Zealand	960	2260
Mauritius	66,183	45,151
Hamburg	180	
Maldon Island	—	2520
South Seas	3515	5735
TOTAL	£807,182	778,087

The United Kingdom seems to have taken a considerable part of the trade carried on in the previous year with Victoria. With New South Wales (excluding Specie) the trade was nearly the same. With Queensland our commercial relations in respect to Imports improved; with New Zealand they declined considerably.

Exports.

The total value of the Exports in 1872 was £910,663 against £740,638 in 1871, being an increase of £170,025, or at the rate of 22·96 per cent. In the previous year there was an increase of 14·17 per cent.

The rate of Exports per head of population in 1872 was £8 16*s.* 11½*d.*, against £7 5*s.* 6¼*d.* in 1871.

* Total Clothing, &c., 1872, £254,325; 1871, £233,517. † Total Liquors, 1872, £33,639; 1871, £36,419.

‡ Each of these amounts includes Coin, £20,000.

The value of the Exports to the different countries was, for 1872 and 1871 :— Exports, *contd.*

COUNTRIES.	VALUE OF EXPORTS.	
	1872.	1871.
	£	£
United Kingdom	462,486	337,508
Victoria	290,769	262,734
New South Wales	99,552	86,119
Queensland	6,188	7,905
South Australia	13,939	12,695
New Zealand	36,964	32,332
Hong Kong	—	1,190
Fiji Islands	—	155
Guam	765	—
TOTAL	910,663	740,638

The Exports to the principal countries are thus shown to have uniformly increased, with one exception—that of Queensland. It is to be regretted that our trade has not been extended. There is a large and permanent demand for horses in the Indian market which might be supplied in great measure from this Colony; and it is not easy to see why a good trade with India might not also be done in jams, and malt liquors.

The decennial return of principal Exports shows the following result of comparing those for the last two years :—

ARTICLES.	QUANTITIES.		VALUES.	
	Increase.	*Decrease.*	*Increase.*	*Decrease.*
			£	£
Bark, tons	3679½	—	15,641	—
Bran and Pollard, bushels	—	25,161	—	1238
Butter and Cheese, cwts.	—	75	—	73
Flour, tons	—	1582	—	17,430
Fruit, Preserved, lbs.	96,331	—	6443	—
Green, bushels	—	1600		
Gold, ozs.	475½	—	1837	—
Grain, bushels	—	1923	—	6658
Hides, Skins, and Leather	—	—	10,780*	—
Hops, lbs.	216,135	—	15,944	—
Live Stock, No.	1605	—	10,291	—
Oil Sperm, tuns	—	49	2925	—
Timber	—	—	—	2926
Vegetables, tons	—	5820	—	3109
bushels	—	8240		
Wool, lbs.	743,808	—	135,973	—
			199,834	31,434
Excess of Increase over Decrease				£168,400

Out of this total increase of £168,400, no less a proportion than £135,973 was contributed by Wool. Nor was this caused only by improvement in price, for there has been a progressive increase in the quantity in the last three years, the Exports having been—

In 1870	4,146,913 lbs.
1871	5,254,719 lbs.
1872	5,998,527 lbs.

It is a fact worthy of especial notice, that the quantity of Wool exported in 1872 has never, except in the two years 1859 and 1868, been exceeded.

In Hops and Jams there was also a large increase in quantity as well as in value. These three articles being our staple products, it is satisfactory to observe that the supply continues to increase, and find profitable markets. Hops show an increase in quantity of 216,135 lbs., or 44·91 per cent., and in value of £15,944, or 6·88 per cent.

* Including Rabbit Skins.

Exports, *contd.* The export of Bark was greatly in excess of any other year in the decade. So was that of Hides, Skins, and Leather, the value of which was augmented to the extent of £6365 by Rabbit Skins. A gratifying fact is the increase in the number of Sheep exported; and now that the Scab Act is in full operation, the improvement is likely to be progressive. For this climate being considered to be eminently favorable to the production of Wool of the best quality, Tasmanian Sheep may be expected to be more and more in demand for breeding purposes, as long as they are known to be free from scab.

In Gold there was an increase of 475½ ounces. As to the production of this metal, there will be a more fitting opportunity to speak when considering the return relating to Gold Mining.

In Horses there was an increase of 170, though the value is returned as less by £549: the average in 1871 being £30 per head; in 1872, only £17. I know not whether this decline in value was caused by a fall in the markets, or by deterioration in quality. If the latter be the case, it would show (considered in connection with the constant demand in India, and with the fact that superior horses will always bring a good price), that the falling off in the horse trade, which has so long been going on, is not so much the result of adverse circumstances as of neglect on the part of breeders to make use of their opportunities.

In Bran and Pollard there was a very large decrease; but the value is so small that the fact is not of much importance. A decrease far more to be regretted is that upon Butter and Cheese, the export of which is the smallest in the ten years. Such was also the case with Flour.* Converting the excess of Wheat as compared with 1871 into Flour, the decrease would be 1144 tons. The export of Oats was larger by 6114 bushels, and was a fair average. On Barley there was a falling off as compared with 1871 of about 50 per cent.; but the quantity shipped in 1872 was still larger than in any of the other nine years, and very much larger than in six out of the ten.

Other decreases are—in Sperm Oil, 94 tuns; in Timber, value, £2926; in Vegetables, 5820 tons (more than 50 per cent.), and Pease and Beans, 8240 bushels. The last is doubtless due partly to the restrictive system of the Colonies, and partly to the extension of cultivation, which renders them for the most part independent of foreign supplies.

Among the articles of home produce not included in the decennial return of Exports we find—Pigs 1380, valued at £2742; Oatmeal, tons 140, valued at £3000; Pearl Barley, 8 tons; Groats, cwts., 157; Pea Flour, ton, 1; Cask heads, 3257; Flax, case, 1; Linseed, cwts., 91; Iron ore, tons, 11; Bricks, 6120; Hats and Caps, packages, 4; Malt, bushels, 4440; Malt Liquor, gallons, 9369; Oysters and Crayfish, packages, 508. Some of these are of considerable interest, as arising out of the establishment of new industries, which, if a free exchange of productions between the Colonies were permitted, might result in a considerable trade.

The total Commerce in 1872 was represented by the figures £1,717,845,—an increase upon that of the previous year of £199,120, or 13·11 per cent., the increase in 1871 having been 5·35 per cent.

Shipping. The total Shipping in 1871 and 1872 was—

YEARS.	INWARDS.		OUTWARDS.	
	Ships.	*Tons.*	*Ships.*	*Tons.*
1871.....	635	107,271	648	108,889
1872.....	594	102,379	595	103,101

There was a decrease, it will be observed, both in the number of vessels and in the tonnage. The total tonnage, both ways, has not been so small since 1867.

* This arises from two causes :—1. The increase in production in the main-land Colonies, which makes them less dependent on external supplies; 2. The operation of Customs duties.

The following Table will show where this decrease occurred. It is not necessary to extend the comparison to shipping outwards.

Countries whence arrived.	SHIPS.		TONS.		*Increase (+) or Decrease (—) in Tonnage in 1872.*
	1871.	**1872.**	**1871.**	**1872.**	
United Kingdom	13	11	6537	5273	— 1264
British Possessions	598	558	94,722	90,014	— 4708
Foreign	—	2	—	788	+ 788
Southern Whale Fisheries.....	24	23	6012	6304	+ 292
Total Decrease in Tonnage...	—	—	—	—	— 4892

Compared with the Returns for 1870, the decrease on Shipping entered inwards was 3268 tons. The whole of the decrease in 1872 occurred at the Sub-ports, the tonnage there having been smaller by 5256 than in the year before.

The number of Ships on the registers on the 31st December, 1872, was smaller by 2 than in the corresponding day of the previous year; and the decrease in the tonnage was 387.

The Steamers were the same in number in both years.

Whale Fisheries.

In the Whale Fisheries the number of vessels employed in both years was also the same; but in the produce there was a considerable decrease in 1872. The number of successful ships and their produce for the last two years, were—

YEARS.	NO. OF SHIPS.	TONNAGE.	OIL PRODUCED.		VALUE OF OIL AND WHALEBONE.
			Black.	*Sperm.*	
			TUNS.	TUNS.	
1871	18	4275	5	659	46,350
1872	12	3070	13½	339	27,420
Increase	—	—	8½	—	—
Decrease	6	1205	—	320	18,930

Coal.

The quantity of Coal raised in 1872 was 8141 tons, being 1386 tons less than in 1871.

Prices.

Between the Prices of home produce at Hobart Town in those years there were no very remarkable variations. Butter, potted, rose from 9*d.* to 1*s.* to 10*d.* to 1*s* 6*d.*; Cheese (no English being in the market) varied from 8*d.* to 9*d.* to 8*d.* to 1*s.*; for Eggs the maximum advanced from 1*s.* 6*d.* to 2*s.* per dozen; for Flour, from £12 10*s.* to £14 per ton; for Wheat, from 5*s.* to 7*s.* per bushel; for Hay the minimum increased from £2 10*s.* to £4, and the maximum from £3 to £4 15*s.* Butchers' Meat ranged as follows:—Beef, in 1872, from 3*d.* to 9*d.* per pound; in 1871, from 5½*d.* to 7*d.*; Mutton, 1872, 3*d.* to 8*d.*; 1871, 2½*d.* to 6*d.*; Straw rose from £2 in 1871 to £2 10*s.* to £3 in 1872; while the price of Potatoes varied from £3 10*s.* to £4 per ton in 1871 to £2 10*s.* to £4 15*s.* in 1872. The changes were therefore generally favourable to the producers.

Rates of Wages.

There are frequent variations between the rates of wages as shown in the returns for 1871 and 1872, but I cannot discover that they are reducible to any law or principle.

Trades and Manufactories.

The return of Trades and Manufactories shows an increase in 1872 of Agricultural Implement Maker, 1; Auctioneer, 1; Bakers, 13; Basket Maker, 1; Boot and Shoemakers, 34; Brewery, 1; Bricklayers, 7; Brickmakers, 9; Builders, 12; Butchers, 13; Chemist and Druggist, 1; Coopers, 4; Fellmongers, 48; Foundry, 1; Furriers, 5; Gardeners, Market, 42; General Dealers, 34; Grocers, 3; Gunsmith, 1; Ironmongers, 8; Maltsters, 3; Mills, Water, 5; Millwright, 1; Painter, &c., 1; Pastrycooks and Confectioners, 2; Plasterers, 2; Rope Makers, 4; Tailors, 20; Tin-workers, 4; Tobacconists, 3; Turners, 6; Watchmakers, 2; Woolstaplers and Sorters, 4. A decrease is seen of Blacksmiths, 4; Bone-dust Manufactory, 1; Cabinet-maker, 1; Candle Manufactory, 1; Carpenter, 1; Cheese-makers, 18; Corn and Ship Chandlers, 3; Hawkers, 4; Pottery, 1; Publicans, 13; Saddle and Harness Makers, 6; Saw-mills, 2; Ship and Boat Builders, 4; Stonemasons, 4; Tanner, 1; and Wine Merchants, 3.

III.—Finance, &c.

Revenue and Expenditure.

The Revenue and Expenditure of the Colonial Government for the Year 1872 are shown in the subjoined Statement, furnished by the Assistant Colonial Treasurer:—

GENERAL REVENUE, exclusive of Debentures and Expenditure under Loans Acts.

	1871.	1872.
	£ s. d.	£ s. d.

	52,662 14 1	50,275 9 2

W. LOVETT, *Assistant Colonial Treasurer.*

Colonial Treasury, 24th May, 1873.

Imperial Expenditure.

The Expenditure on account of the Imperial Government in 1872 was £35,344 18*s.*, being £2572 12*s.* above that of 1871.

Course of Exchange.

The Exchange with London was lower than in 1871. The Bank rates for the purchase of mercantile bills at 60 days being, for the first half of the year, ¼ per cent. discount and, for the latter half, ½; and the rates for the sale of Bank bills, ¾ and ½ per cent. premium, against 1 per cent. in both cases in 1871. The rates of Discount, and of Exchange with the other Australasian Colonies, were unaltered.

Banks.

The variations between the Bank returns for 1871 and 1872 are considerable, and will be better shown by repeating the quarterly totals, than by taking the average for those years.

Second ditto...	185,576	167,839	1,041,044	956,929	83,862	83,539	666,216	711,738
Third ditto....	179,637	177,340	1,026,684	912,762	74,908	79,393	623,193	715,049
Fourth ditto...	173,426	207,327	1,038,933	894,132	75,717	78,851	658,098	739,557

In Specie and Bullion there was, as will be seen, a decrease in the first three quarters, but a considerable increase in the last. In the Debts due to the Banks there was a large decrease throughout. In the Notes in circulation there was a decrease in the two first quarters, but an increase in the two last; while in the Deposits there was a large and uniform increase. The diminution in the Debts, and excess of Deposits, seem to show that the amount of realised capital was considerably greater in 1872 than in the previous year. We should naturally have looked for such a result from the improvement in the price of wool as compared with what it was some time since.

Savings' Banks.

The Table which follows shows the most important items of the Savings' Banks returns for the last three years:—

YEARS.	AVERAGE ASSETS.			AVERAGE LIABILITIES.		*Deposits during the Year.*	*Repayments during the Year.*
	Mortgages.	*Debentures.*	*Cash in other Banks, and on hand.*	*Amount of Deposits.*	*Reserve. Fund.*		
	£	£	£	£	£	£	£
1870	134,492	87,189	19,595	223,262	23,648	119,120	109,065
1871	145,700	78,542	14,721	219,752	24,958	112,981	121,600
1872	135,930	88,704	23,778	226,822	26,685	121,059	109,095

The comparison is entirely in favour of the past year; and if we extend it back to 1866, or perhaps, further still, the result will be the same.

Post Office Money Orders.

During 1872 the number and amount of Money Orders issued and paid by the Post Office were—

Issued— { Number..... 5820.
{ Amount..... £21,171.

Paid— { Number..... 5102.
{ Amount..... £19,325.

The system was established in 1865. From its commencement the increase has been continuous. Comparing therefore 1872 with 1866 (the first full year), the increases are found to be—

On Number of Orders— { Issued..... 203·78 per cent.
{ Paid ..... 151·33 per cent.

On Amount of Orders— { Issued..... 77·62 per cent.
{ Paid ..... 122·89 per cent.

These results show how largely the public convenience has been promoted by the operation of this means of transmitting small sums of money.

Public Debt.

The Public Debt of the Colony on the 31st December, 1872, was £1,455,900, having been increased by £161,500 since the preceding year. The return shows that this Debt was incurred for the following purposes:—Public Works and Immigration, £1,138,529; Commutation of Grant for Religious purposes, £100,000; Debt to Imperial Government, £30,500; to make good deficiencies in Revenue, £186,871.

Gold Mining.

The return relating to Gold Mines shows that in 1872 the average number of persons employed in this industry was 530 (a part of whom, however, were not occupied continuously through the year), or 95 more than in the preceding year. The quantity of alluvial gold obtained was as nearly as could be ascertained, 3795 ozs. Of quartz, 6008 tons were crushed, producing 3174 ozs., giving an average yield of 8 dwts. 14·46 grs. to the ton. The total quantity of gold produced was thus 6969 ozs., the value of which was £27,314. The average value per oz. was for alluvial gold £3 18*s.* 10*d.*, the maximum being £4, and the minimum, £3 17*s.* 6*d.*; and for that extracted from quartz, £3 10*s.* 7·33*d.*, the maximum at Nine Mile Springs being £4, and the minimum, (at Waterhouse), £2 14*s.* 4d. Comparing the yield with that of the previous year, we find a decrease of 225 ozs. in alluvial gold, but an increase of 1188½ in that from quartz.

The Commissioner at Fingal has furnished the following careful report, dated 30th January last, containing some particulars which will be of much interest to those who are watching the progress of our industries:—

"Alluvial mining during the past year has greatly declined, the estimated yield from the Reedy Marsh workings, Mathinna, being little more than a third of the yield during 1871.

"No new ground of any importance has been opened during the year, and the gold now obtained is principally raised from patches of ground in the old claims which have escaped the attention of former

workers. This 'fossicking,' or 'grummeting' as it is called by the diggers, gives returns varying from ten to thirty shillings per man per week, an occasional patch giving better results; and although such results are not likely to attract population from without, yet 'fossicking' will give a living for some time to come to those who understand digging and are not afraid of hard work.

"There are about 70 men employed in alluvial mining at the present time, the average number during the past year having been about 130. The yield of alluvial gold for the year is estimated at 1100 ounces, valued at £4345, being at the rate of £3 19*s.* per ounce.

"I am desirous once more to record my opinion that the alluvial deposits along the course of the South Esk River are well worth a trial by experienced miners.

"Quartz mining has been carried on with much more energy during 1872 than during 1870 or 1871, as the following table will show:—

Claim.	*Tons Crushed.*	*Gold obtained.*		*Value.*	*Yield per Ton.*			*Value per oz. where obtainable.*
		ozs.	*dwts.*	£	*ozs.*	*dwts.*	*grs.*	
City of Hobart	2002	1565	13	6115	—	15	15	£3 18*s.* to £4 0*s.* 2*d.*
East City of Hobart..	32	6	4	24	—	4	—	
White Boy.....	35	95	—	370	2	14	7	£3 18*s.* 0*d.*
Yellow Boy	96	54	16	210	—	11	10	£3 17*s.* 10*d.*
Champion	32	7	3	28	—	4	12	
Caledonian	559	358	7	1386	—	12	20	£3 17*s.* 5*d.*
Golden Gate, No. 1...	201	118	6	413	—	11	18	£3 9*s.* 6*d.*

Mathinna	29	8	8	32	—	5	19	£3 17*s.* 10½*d.*
Monarch	20	1	14	6	—	1	17	
City of Melbourne ...	43	10	5	40	—	4	18	
Perseverance	16	8	16	33	—	11	—	
Derby	254	99	10	390	—	7	20	
Scandinavian	20	4	18	19	—	4	22	
	3388	2350	—	9106	—	13*	21	£3 17*s.* 6*d.* *

"The reef gold varies in value from £3 9*s.* 6*d.* per ounce to £4 0*s.* 2*d.* per ounce, the latter price having been obtained for some of the City of Hobart Company's gold.

"The average value of the reef gold is £3 17*s.* 6*d.* per ounce, and the average yield for the year has been 13 dwts. 21 grs. of gold to the ton of quartz.

"The cost of crushing is estimated at about 8*s.* per ton; but as there are only two batteries at work, those belonging to the City of Hobart and the Caledonian Companies, all the other claim-holders crush their stone at one or other of these batteries, the City of Hobart Company charging 12*s.* per ton, and the Caledonian Company charging 10*s.* per ton for crushing.

"As the City of Hobart Company is perhaps the best known and the most forward of any of the Companies in this District, I append the result of the Company's operations from the first crushing in 1871 until the end of 1872, including the returns from the East City of Hobart claim, which is held by the same Company, but exclusive of public crushing:—

Year.	*Tons Crushed.*	*Yield per Ton.*	*Total Yield.*	*Value.*
		ozs. dwts. grs.	ozs. dwts. grs.	
1871	454	1 7 23	634 13 10	2206 ozs. 10 dwts. 10 grs., at £3 18*s.* 6*d.* per oz., say £8660.
1872	2002	0 15 15	1565 13 0	
East City	32	0 4 0	6 4 0	
TOTAL	2488	0 17 18*	2206 10 10	

"The City of Hobart Company are now taking steps to test their ground at a greater depth than heretofore, and should their reef continue as good as it has proved in the upper workings, a great impetus will be given to quartz mining in this District.†

"Reefing at the present time is rather dull, but there are about 80 men at present employed on the reefs, the average number during the past year having been about 90.

"The whole of the returns for the past year refer to the Black Boy Gold Field, including the alluvial ground of Reedy Marsh and the quartz reefs round Mathinna.

"Mangana is at present practically extinct as a Gold Field, the Tower Hill Quartz Company, which was the only claim at work during the greater part of 1871, having ceased operations early in 1872.

---

* Average.

† Since the date of this report the reef has been proved at a lower level, about 200 feet from the surface, where it is from two to three feet thick, yielding as much as 1 oz. 14 dwts. nearly to the ton, with a large proportion of pyrites, which have not yet been treated.—E.C.N.

"The population on the Black Boy Gold Field now numbers about 450 persons, who may be thus classified:— Gold Mining, *contd.*

Adult Males.	Quartz Miners	80
	Alluvial Miners	70
	Blacksmiths, Splitters, Woodcutters, Carters, and Laborers employed in connexion with reefing	45
	Publicans, Tradesmen, and Servants	35
	Unenumerated	40
	Total adult males	270
	Women and children	180
	Grand Total	450

"Gold mining in this District has now arrived at a very critical point, but the results already obtained from our reefs should be an encouragement to those engaged in mining to hold their ground in the hope of better things to come."

The Commissioner at George Town, under date 8th March last, writes:

"The quantity of Gold stated to have been produced from Quartz Mines has been obtained from returns furnished by the Managers. It is quite impossible to ascertain the exact quantity of Gold procured in the District from alluvial drift. I have closely watched the operations of the Miners during the year, and have estimated the probable quantity of Gold found by them. The Return cannot, of course, be looked upon as anything but an approximation. I have taken the lowest estimate in compiling it, but really I am inclined to think that a much larger quantity of Gold has been procured. The Chinese especially are very reluctant to let us know the results of their labour; but as they always appear to be well off, and to have a plentiful supply of cash, I am not disposed to think that I have averaged their earnings at too high a rate.

"Since the close of the year the Quartz Crushing Machines have ceased to work. The large battery erected by the Shamrock Gold Mining Company at the Nine Mile Springs was recently sold to the promoters of a Company to manufacture iron in another part of the District. The battery upon the original Pioneer Reef at Waterhouse is also now being removed, and Gold-mining at that place has actually ceased.

"On the whole, the operations of the Alluvial Diggers have been highly satisfactory, and their numbers have considerably increased since the beginning of the present year, although by comparison with Gold Fields in the other Colonies, the mining population here is still miserably small."

From the Hellyer the report (dated 14 February) as to past operations is not favorable. My informant states:

"The Diggers actually at work profess to be sanguine, but scarcely anyone else whom I meet in the District retains much hope.

"Rumours of good finds, as is usual in such cases, are occasionally flying about, but are received with great caution, and are rarely confirmed eventually.

"The country is very rough, steep always, and often encumbered with 'horizontal scrub.'

"Freight of goods to the Diggings from the township (Wynyard) rules at £15 a ton.

"The river runs through a steep narrow gorge, and is therefore subject to sudden and considerable rises, rendering working in the bed of the river a very ticklish undertaking; so much so, that no one has ventured to risk the necessary capital to give it a thoroughly fair trial.

"People began working the locality much too early in the year, when the country was still too wet and the river too high and too liable to fluctuations of level, and were thus constantly being thrown into enforced idleness and wasted their means and suffered discouragement."

IV.—Establishments, &c. maintained or assisted by Government. Post Office.

The number of Letters, Packets, and Newspapers which pass through the Post Offices in the past year were as follows:—

	Received.	Despatched.	Increase (+) or Decrease (—)	
			Received.	*Despatched.*
Letters	990,187	1,032,533	+37,375	+34,044
Packets	31,393	25,692	+4897	+2910
Newspapers	642,104	856,611	—43,052	—34,209

The Expenditure on account of the Postal department (notwithstanding that two additional offices were established) was less by £2295 14*s.* 7*d.* than in 1871. The Revenue cannot be exactly ascertained, since the Stamp Act provides that Post Office Stamps may be used for the purposes of that Act.

Electric Telegraph.

The return relating to the Electric Telegraph shows that through the land line 24,254 messages were passed in 1872, being 3719 more than in 1871. On the total value of the messages there was an increase of £670 19*s.* 4*d.* The Expenditure of 1872 was less than that of 1871 by £123 4*s.* 6*d.*

Launceston and Western Railway.

The Launceston and Western Railway having been taken over by the Government in the course of the year, the returns relating to it appear for the first time in the Statistics of the Colony. The expenditure for the year is shown to have been £13,786 9*s.*, being per train mile, 3*s.* 9·76*d.*, per mile of road open, £306·36. The revenue was £13,636 6*s.* 3*d.*, being per train mile, 3*s.* 9·24*d.* From passengers the receipts were £6199 15*s.* 7*d.*; from goods, £5645 15*s.* 5*d.* The total number of passengers conveyed was 63,647; the total quantity of goods, 18,111 tons.

The cost of the 45 miles now completed and open is stated to have been—Construction, £429,903, average per mile, £9553·4; Rolling Stock, £30,097, average per mile, £66·88.

Marine Boards.

The receipts of the Marine Boards were in the aggregate, £8659 15*s.* 8*d.*; the expenditure, £8180 6*s.* 11*d.* On the former there was a decrease as compared with those of 1871, of £223 15*s.*; on the latter an increase of £358 10*s.* 2*d.*

Light-houses.

The expenditure on account of Light-houses in 1872 was £4866 19*s.* 5*d.*, being slightly larger than in the previous year. The amount of Light Dues received (£2080 3*s.* 2*d.*) was smaller by £182 15*s.* 11*d.* The sum of £4444 7*s.* 11*d.* was received from the Australian Governments as their proportion of the expense for 1870-1, and part of 1872.

Salmon Breeding Establishment.

The only point in connection with the Salmon Breeding Establishment which need be mentioned is the work done by its aid during the year. That part which consists in the distribution of ova and fry is shown in the subjoined return furnished by the Secretary to the Commissioners :—

RETURN showing the distribution of OVA *and* FRY *from the* BREEDING PONDS, RIVER PLENTY, *during the year ending* 31*st December*, 1872.

	OVA.	
Salmon Trout—Launceston		400
Brown Trout—New South Wales		500
	Victoria	5500
	New Zealand	3100
	East Coast Rivers, Tasmania	500
	Launceston	600
	FRY.	
Salmon Trout—Swansea		20
	Huon	81
Brown Trout—Swansea		180
	Upper Derwent	350
	Victoria	510
	Upper Derwent	350
	Kermandie	200
	Mountain River	400
	Jordan	250
	TOTAL	12,941

Penal and Charitable Institutions.

The number of inmates and net expense of the Penal and Charitable Institutions under the control of the Government or assisted by it in 1872 is shown in the statement which follows :—

INSTITUTIONS.	*Average Number chargeable to*		*Proportion of Expense chargeable to*					
	Imperial Government.	Colonial Government.	Imperial Government.			Colonial Government.		
			£	*s.*	*d.*	£	*s.*	*d.*
PENAL.								
Port Arthur*	311	221	8826	8	8	6251	5	7
Gaol for Males, Hobart Town	3	157	59	16	5	3710	3	10
Ditto for Females, ditto	1¼	91¾	16	2	11	1185	1	0
Ditto, Launceston	4¼	113	123	2	10½	2676	17	3
Reformatory, Cascades	3½	35½	4	6	0	331	3	4
Total Penal	323	618¼	9029	16	10½	14,154	11	0
CHARITABLE.								
Cascades Pauper Establishment	19½	258½	193	13	7¼	2567	7	10¾
General Hospital, Hobart Town	3⅓	80⅓	129	13	0	3129	14	4
Ditto, Launceston	½	63¼	17	3	7	2587	12	10
Invalid Depôt, ditto	1	127	11	16	4½	1494	6	4
Hospital for Insane, New Norfolk	34	259	758	14	8	4699	10	7
Ditto, Campbell Town	..	..		..		171	12	0
Queen's Asylum	17½	323½	281	14	4	4999	0	2
Ditto Farm	..	..		..		493	1	6†
Brickfields Pauper Establishment	..	246⅔		..		2757	15	2¼
Industrial School for Females	..	..		..		409	10	0
Benevolent Societies	..	..		..		1484	18	8
Ragged Schools	..	..		..		300	0	0
The Boys' Home	..	..		..		344	13	5
Aborigines	..	..		..		60	0	0
Out-door Charitable Relief	..	..		..		9206	13	6
Total Charitable	75⅚	1358 5/12	1392	15	6¾	34,705	16	5
TOTAL PENAL AND CHARITABLE	398⅚	1976⅔	10,422	12	5¼	48,860	7	5

Comparing these amounts with those in the similar Table in the Report for 1869, we find a reduction in the cost to the Colony of Penal Establishments of (in round numbers) £5327. On that of Charitable Establishments there appears to be an increase of £8272. But deducting the charge for Out-door Charitable Relief, which in the present case amounts to £9206 13*s.* 6*d.*, the total for 1872 would be £934 less than in 1869; or, adding to the total for 1869 the sum expended, £5511 4*s.* 11*d.*, which was not included in the tabular statement of the Statistical Returns for that year, there would be an increase of £2761. The increase, therefore, was caused entirely by the growing demands on account of the out-door relief.

Road Trusts.

The Return relating to Road Trusts is at present incomplete, some of the districts having neglected to send in the information required from them, and the same difficulty is experienced year by year. Sometimes where this cause of complaint does not exist, there is another, which gives hardly less trouble—inaccuracy, arising in some cases from absolute want of sufficient education to comprehend and apply the ordinary principles of account-keeping. The change in the law made by the Cross and Bye Roads Act of 1870, by which the Trustees were directed to make up their annual accounts to the end of February, instead of to the end of December, as was previously the case, causes much inconvenience in regard to the preparation of the Statistics, by delaying for two months the rendering of the returns.

Municipalities.

The receipts (including balances) of the Municipalities of Hobart Town and Launceston were £34,580 9*s.* 9*d.*; and the expenditure £34,199 18*s.* 2*d.* The Rural Municipalities had an aggregate of receipts of £21,574 4*s.* 3*d.*, and of expenditure of £22,068 16*s.* 6*d.*

Valuation of Property.

The annual value of property in the Colony, as shown by the Valuation Rolls, in 1872, was—

	£
In Municipalities of Hobart Town and Launceston	159,376
In Rural Municipalities	338,846
In Police Districts	102,254

amounting together to £600,476, which is lower by £23,146 than it was in 1871.

* For 1871 the proportions not being stated are arrived at by calculation.
† Net expenditure, not crediting milk and firewood supplied.

V.—Crown Lands.

Land sold. The sales of Crown Land during 1872 were :—

Description of Land.	*Number of Lots.*	*Area.*	*Proceeds of Sale.*	*Average price per Acre.*
		A. R. P.	£ s. d.	£ s. d.
Country lots	303	25,782 1 4	29,993 8 2	1 3 3
Town and Suburban lots	57	382 3 29	1890 11 8	4 19 0
Total	360	26,165 0 33	31,883 19 10	

As compared with the corresponding figures for 1871 there was an increase in the number of lots of 69, and in the amount realised of £4107 9*s.* 10*d.*; in the average prices there was also an increase—of Country lots of 5*s.* 8¾*d.* per acre; of Town lots of £1 1*s.* 4*d.* On the area of land sold there was a decrease in 1872 of 4718*a.* 3*r.* 5*p.*

Land leased. The area of land leased in 1872 was 1,761,003 acres, producing a rental of £6745 1*s.* 8*d.* On the former there was an increase of 364,997 acres; on the latter, of £597 17*s.* 9*d.*

Gold Fields. The number of lots and area of land held under "The Gold Fields Act," in the last two years were—

Years.	*Miners' Rights.*	*Water Rights.*	*Business Licences.*	*Gold Mining Leases.*		*Prospecting Claims.*	*Machinery Areas.*
				No.	Area.		
	NO.	NO.	NO.		ACRES.	NO.	NO.
1871	*	4	18	15	810	3	10
1872	855	4	14	26	474	1	10

The amount received on account of the occupation of land at the Gold Fields in 1872 was £831 15*s.* 9*d.*, against £1190 17*s.* 6*d.* in 1871. The number of Miners' Rights issued in 1872 was, however, greater than in 1871 by 294.

Mineral Leases. Under "The Mineral Leases Act, 1870," there were granted in the past year 8 leases, of an aggregate area of 565 acres—5 for the purpose of Iron-mining, at Ilfracombe; 1 for Tin-mining, at Mount Bischoff; 1 for Slate-quarrying at Piper's River; and 1 for Coal-mining, at New Town.

Minerals—Iron. At the present time, when the extraordinary advance in the price of Iron and Coal makes it a matter of world-wide interest to discover any fresh sources of supply, it may not be without use to furnish such particulars as are obtainable in regard to the chief deposits of those minerals in Tasmania.

The subject of Iron manufacture has, as no one in the Colony need be reminded, for some time occupied a considerable share of public attention, and one company has not only been formed, but has erected furnaces near Ilfracombe, on the west bank of the Tamar. In this district there are large stores of iron ore, as to which the Government Geologist reported in 1866. He found four varieties, the principal of which is earthy brown hematite, crystallised brown hematite, and magnetic oxide, with earthy red hematite in smaller quantities. Unlike other iron ores which he observed in many parts of the Colony, these, he states, "appear to be contained in real mineral lodes, or to be derived from the contents of such." As regards the principal deposit, he calculates on a rough estimate the cubic contents of a portion ot the vein above the water level—300 yards in length by about 22 in width—at about 705,800 tons. "Assuming that only one half of this is rich ore—and I consider this to be an estimate below rather than over the mark,—we have an amount of 350,000 tons of rich ore lying above the water level, and presenting every facility for being *quarried* in stopes at an exceedingly low rate per ton, the other moiety presenting equal facilities of working; while every yard in depth below the water level would yield, on the same calculation, 20,458 tons, without taking into consideration the extension of the lode westward, which would largely augment it. The ore contained in this lode is brown hematite. * * * It will probably average from

* Not ascertainable; number issued in 1871, 516; in 1872, 810.

55 to 60 per cent. over a large portion of the lode. It stands out from the surface in weathered blocks, and towards the upper end detached masses of immense size occur. The largest of these blocks has the following dimensions:—12 feet in height, 22 feet in length, and 15 feet broad." Minerals—Iron, *contd.*

Another deposit, similar in character, but much less extensive, he found on the end of the tramway on which the first is situated, and about ten miles from the shipping-place. This also appeared to be a defined reef or lode containing brown hematite, of a less pure description than the ore just referred to.

At the Ironstone Hills, in the same district, about two miles from the water's edge, occur large boulders of iron ore, which, as Mr. Gould thinks, are likely to be "nothing more or less than what miners call the back of strong lodes of magnetic oxide of iron." * * * "In fact, the drift below points to the existence of veins of magnetic oxide of some size, while the magnitude of the surface deposit renders it probable that that size would be considerable. I consider that eventually these spots will become of great value."

Beside these deposits, which are on Crown land, others were found on private property, which presented indications of the existence of regular lodes.

As to the facilities for working these ores, Mr. Gould reports that limestone exists in the district in sufficient abundance, but coal has not yet been found in the immediate vicinity, though it might be readily brought by water from the mines at the Don, where, at the distance of about 30 miles, coal of excellent quality can be obtained.

Mr. Gould sums up the substance of his Report from which I have been quoting, by expressing his confidence "at least of this, that at no very distant period the district in which iron ore of such quantity, abundance, and favourable position occurs must become one of the most important in the Colony."

Iron ore in large masses is said to exist in other parts of the Colony, but of these, as far as I am aware, no scientific or careful examination has been made.

One of the most active promoters of the Company above referred to has, at my request, furnished me with the following analyses, which seem to me to be of sufficient importance to be inserted here; and, as to the second, he adds: "Understand, this is not an analysis of *ore* or *stone*, but of the *red oxide of iron* or earthy matter of which our land is almost wholly composed."

1. By Mr. George Foord, Government Chemist and Assayer, Melbourne, 1866:—

"The external characters of this mineral are those of magnetite, or magnetic oxide of iron: it conforms pretty closely to the fibrous variety described by Dufresnoy. Hardness over 6°, gravity 4·98, streak black, obedient to the magnet, and susceptible of permanent magnetism.

"Like most of the examples of this mineral it has the sesquioxide of iron somewhat in excess of the formula for magnetic oxide. This excess appears to exist in the sample partly or wholly as limonite.

Protoxide of iron	30·547
Sesquioxide of iron	66·151
Together	96·698
Difference of alumina, silicic acid, and water	3·302
In parts	100·000

"Preceding determinations were made by permanganate of potassium. The sample is free from other constituents such as are occasionally present in magnetite.

Metallic iron, per cent.	70·00
Existing as protoxide	23·76
Existing as sesquioxide	46·30
	70·06

"If this mineral exists in quantity, and under circumstances otherwise favourable for economic treatment, its high percentage of iron, and its freedom from all obnoxious constituents, will render it of great value for iron and steel manufacture."

Minerals—Iron, *contd.*

2. By Mr. T. H. Forrest, Analytical Chemist, Glasgow, October, 1872:—

"*ANALYSIS and Report on Sample of* HEMATITE IRON ORE, *received from* THOMAS ELLIS, *Esq., Coatbridge, 3rd September*, 1872.

"The specific gravity of the sample (which was received in powder) is 3·26. The weight of a cubic foot is therefore 203·75 lbs.

Peroxide of iron	62·8	equal to iron	43·96
Protoxide of iron	1·8	„ „	1·40
Manganese	13·21		
Sulphur and phosphorus	none.	TOTAL	45·36
Lime and magnesia	traces.		
Silica and titanium	8·6		
Alumina	6·99		
Moisture	6·6		
	100·00		

"REMARKS.—The foregoing Analysis shows the Ore to be free from sulphur and phosphorus: it is therefore calculated to make iron of the very highest quality. The presence of such a notable quantity of manganese renders the Ore particularly suited to the manufacture of the variety of pig iron known by the name of 'Spiegeleisen,' which is of such importance in the manufacture of Bessemer steel. It will be understood that these remarks are based upon the analysis alone. The applicability of any ore to the manufacture of the pig iron in the blast furnace depends very much upon its being sufficiently hard: a soft or friable ore can only be used in small proportion in the blast furnace."

Coal.

Coal, another commodity to which attention is at the present time especially directed, is distributed in almost every part of the Island. That found at the Don is said to be the best for steam purposes. At Mount Nicholas, in the Fingal District, is a seam of bituminous coal, stated to be 12 feet thick, from which there is a continuous descent to the sea, about 12 miles distant. Other seams, more in the interior, may become valuable as railway communication is extended to their vicinity.

Slate.

Slate has been discovered near Piper's River, and is now being utilized. It is said to be of good marketable quality. If it maintains that character, it ought to supersede the slates hitherto imported from Europe.

Tin.

Numerous and rich veins or lodes of Tin have been found on and around Mount Bischoff. The small quantities hitherto exported, (the difficulty of inland transit at present precluding its being conveyed in larger bulk), are understood to have yielded handsome profits; and I am informed by the Hon. the Minister of Lands and Works, who has personally examined the locality, that a sample of the stream tin which he forwarded to Melbourne for assay, produced over 60 per cent of pure metal.

Stone.

Stone also occurs at many places on the coast, whence it might readily be shipped to the neighbouring Colonies.

These are some of the directions in which capital might be more or less profitably employed; and in view of the low rate of interest now prevailing, and the high price of two of the products mentioned—Coal and Iron—they are worthy of consideration.

Agricultural and Live Stock Returns.

The fact that the Agricultural Returns from some of the Districts are outstanding at the date of writing this paragraph (3rd June), obliges me again to publish the Agricultural Statistics for 1872-3 as an Appendix to this volume, and precludes any comment upon them. There have always as yet been a few such districts, whose negligence or inability to perform the work in proper time, keeps back the publication of the whole, and causes constant dissatisfaction to every one concerned with or interested in the Annual Statistics. The defaulters this year are—Clarence, Glenorchy, Port Sorell, and Richmond. I find that last year Clarence did not send its returns until the 28th May, Glenorchy until the 2nd May, Port Sorell until 17th June, and Richmond until 21st May. But, with the exception of Port Sorell,* they had all furnished the information required of them before the present date. The Warden of Glenorchy accounts for the delay by the death of the Collector on whom he placed his chief dependence, but the other districts have not assigned any reason for it. From Richmond, the Superintendent of Police informed me on the 12th May last that the returns were nearly completed, and that he would certainly forward them not later than the 15th.† It often happens that the districts whose returns are the most behind-hand, are the smallest, and therefore have the least excuse for delay.

---

* These were since received, complete, on the 9th instant.

† They are still outstanding, nor has any reply been received to various applications for them, 14th June.

Agricultural, &c. Returns, *contd.*

It has long been with me a question whether the preparation of the Agricultural Statistics might not be facilitated by sending a schedule to each owner of stock or crops, but what has hitherto induced me to abstain from doing so is the fear that many would not fill it up correctly without the aid of the Collector. In the case of those who cannot write, or have but little education or intelligence, it would be impossible, or if possible, unadvisable, to trust wholly to themselves to set down the required particulars. Perhaps, however, a union of both systems might be productive of improvement: that is, blank schedules might be sent by post to those who are considered capable of filling them up correctly; and as regards those who are not, the Collectors might still go round as they are now required to do in every case, and take down the particulars *in loco*, correcting them, when necessary, with the aid of their own knowledge and intelligence. In this way, the returns may be obtained earlier, but as long as many of the Collectors are not under the control of the Government who pays them, it will be impossible to deal effectually with cases of negligence.

Under a more perfect system the Agricultural Tables might be published in the Government *Gazette* considerably earlier than is now possible, but they can never be completed as early in the year as those of the Australian Colonies, because the seasons here are at least a month later; and in making comparisons this should always be borne in mind. Another circumstance which presents a difficulty in this respect is the inequality of climate in Tasmania, caused by its mountainous character. In the interior and higher parts, where the weather is colder than near the coast, and in the more humid districts, the crops are proportionally later, and the returns must naturally be somewhat delayed. When such is the case, if undue pressure were put upon the Collectors to force them to send in their returns by the appointed time, the result would be, that instead of statements of actual produce, we should in very many cases get only vague estimates of grain still in the stack.

If, however, the defaulters who now delay the completion of the tables so long by their failure to transmit their returns in reasonable time, could be made to render them with all possible promptitude, the Agricultural Statistics might be published, according to the season, by the middle or end of May, and thus a month or six weeks might be saved.

Although unable to complete the tables, there are some points in the reports of the Collectors which I am unwilling to let pass without comment. At Campbell Town there is stated to be a steadily increasing improvement in the breeding of sheep, and flock-owners from the Australian Colonies are said to have purchased at very high rates. At Longford it is reported that improvements are being made in underground draining. Some years since I was informed by a gentleman residing in this district that he had drained a field by tiles, which he had made on his own ground, and that the increase in the first year's yield paid all the expenses. At Sorell a slight increase in machinery is reported. At Ross, as I am informed, some low lands have been drained, and other lands have been brought under irrigation, "much increasing the value for fattening purposes." The Collector at Franklin gives some interesting particulars relating to the growth of small fruit in his district, from which it appears that the quantity of raspberries SOLD to buyers from Hobart Town (independently, as it appears, of that which was made into jam on the spot) was 108½ tons. The quantity of jam made is stated to have been 75 tons, not including that intended for private consumption. While on this subject it may be well to mention, that I have been informed, on what must be regarded as good authority, that at and around Launceston during the past season, large quantities of fruit have been suffered to rot on the ground unused. It is certainly hard to understand why there is no jam manufactory at Launceston, and why some of the Hobart Town firms have not established branches there.

At Horton (or Russell), "a good many people," it is reported, "have been trying experiments in a small way in the growth of flax, but they are too poor and too ignorant of the process involved to venture boldly into such an experiment; and the results, as far as they have gone, have not been very encouraging." It is pleasing to find that in this district "there is a marked improvement in the condition of the farmers this year: better crops and better prices have done good for them in one way, *while the trials of the last two or three years have done good also in enforcing more careful and economical habits.*" Industry and economy are the true secret of well-being, for they are constant, while seasons and prices are fickle and precarious. There is only one way to make cultivation succeed, and that is by taking advantage of the favourable years to lay by sufficient means to supply the deficiencies of the unfavourable: but this involves an amount of self-denial and forethought which is seldom found.

Agricultural, &c. Returns, *contd.*

At Oatlands underground drainage is reported to be practised on a few farms, and with good results; and much attention is given to improving the breed of sheep and cattle, the result being that "fancy" prices have been obtained for prize stock.

At Westbury, it is stated, when labour is scarce in harvest time, reaping and mowing machines are much used, though why only then, I am unable to comprehend. The double furrow plough is mentioned as being extensively employed in this district. Farmers seem slow to recognise the fact that one double plough will do as much as two single ploughs, with no additional expenditure beyond that of one horse—so that the cost of a man and horse is saved. There is another important point raised in the report from this district. Where a failure in the grain crops has taken place, it is attributed to want of drainage; and the Collector very sensibly adds: "If the tenant farmer received such encouragement from his landlord as would enable him to make drains of a permanent nature, in a few years the outlay would well repay" both. The landlord might either do the work himself, charging the tenant with interest on the money expended; or the tenant might do it, receiving a *quid pro quo* in the shape of a lease for a certain number of years, and some other consideration for his outlay. Horses are stated to be in such demand in this district, that nearly double the price ruling in the last four years can be obtained for them.

From Port Sorell, also, the report is highly favourable. "The prices," I am informed, "are better; there is more foreign capital in circulation; and the prospects of next year look much brighter than they have done for years;" the use of machinery is increasing, and anticipations are indulged that the working of the mineral deposits in the north-western country will increase the demand for local produce.

There seems to have been a general improvement in regard to the keeping of Stock, caused by the advance in prices; while the state of agriculture, with a few exceptions, was nearly stationary. And such must continue to be generally the case as long as the farmers remain in their present condition of sluggishness and isolation, and allow local jealousies to stand in the way of united action.

Law, Crime, &c.

Crime.

The Committals in 1872 were 123, being 14 fewer than in 1871.

The number of persons tried in the Supreme Court and in the Recorder's Court at Launceston was 108, of whom 82 were convicted. Of the former number 25 were offenders against the person, and 83 against property; 95 were tried for felonies, 13 for misdemeanours.

It will be seen from the following Table, commencing with 1866, that there has been a regular decrease in Crime throughout the period. To the continuous diminution in the number of committals, and of cases of drunkenness, there are no exceptions.

Years.	*Committed for Trial.*	Offenders dealt with			
		By Superior Courts.		*By Magistrates.*	
		Tried.	Convicted.	For Drunkenness.	For other Offences.
1866	238	200	155	*	*
1867	227	174	127	1842	5554
1868	178	139	99	1624	5850
1869	155	112	81	1595	5711
1870	138	110	83	1569	5155
1871	137	105	74	1407	4956
1872	123	108	82	1240	5081

There were no Executions in 1872. Indeed, during the last Seven years, only three persons have suffered the extreme penalty of the law.

Inquests.

In the past year 139 Inquests were held on persons, against 161 in 1871. Curiously enough, the number of males who became the subject of them was in both years the same, namely, 108.

* No Return for this Year.

Litigation.

The returns of Litigation (combining those of the Supreme Court in its Small Debts Jurisdiction, and of the Courts of Requests), show a decrease in 1872 of 206 in the number of summonses issued, and of £1157 1*s.* 10*d.* in the amount sued for; an increase of 79 being however observed in the cases tried, and of £353 8*s.* 5¾*d.* in the amount of verdicts obtained.

On the writs of summons issued by the Supreme Court in its ordinary course of business there was a decrease of 91, or 25 per cent nearly; and on the number of causes tried, of 3, or nearly 18 per cent.

Probates, &c.

Probates and Letters of Administration were granted in 74 cases, the value of the property being sworn under £83,542. As compared with the previous year, there was a decrease in the number of 11, and in the value, of £6045.

Bankruptcies.

The proceedings in Bankruptcy were much more numerous than in 1871; 12 persons having been adjudicated bankrupt against 9 in the previous year, and 35 having presented petitions for liquidation by arrangement, instead of 16.

Mortgages and Bills of Sale.

The Mortgages upon land registered in 1871 and 1872 under both systems were—

	1871.		1872.	
	Number.	*Amount.*	*Number.*	*Amount.*
		£		£
Under the old system	254	129,336	250	119,537
Under the Lands Titles Act	139	41,487	127	40,553
TOTAL	393	170,823	377	160,090

A return has been added this year of Bills of Sale, which completes the incumbrances upon property of all kinds registered during the year. The number of Bills of Sale (including renewals) was 173, and the amount secured by them, £92,680.

Grant Deeds.

There were registered in 1872, 325 Grant Deeds, being 65 more than in 1871.

VII.—EDUCATION, &c.

Public Schools.

The returns relating to Schools under the Board of Education show that 9 additional schools were opened in 1872. The number of distinct scholars on the rolls during the year was 9979, the average being 6938; average daily attendance 5224; the number who entered during the year 3641; number who left 2676; number of teachers and assistants 216, and of pupil teachers and monitors 41. On the average daily attendance there was an increase of 37; and on the average number on the rolls, of 152.

The amount paid to Teachers by the State, in salaries, gratuities, &c., was £10,905 6*s.* 11*d.*, in house allowance, £531 13*s.* 4*d.*, together £11,437 0*s.* 3*d.*, beside which they received in school fees from parents or guardians £3853 5*s.* 11*d.*, making a total income of £15,290 6*s.* 2*d.* On School Buildings, in rent, repairs, furniture and fittings, and on school books and other requisites there was expended the sum of £733 8*s.* 7*d.*, making the total cost to the State of the Public Schools, £12,170 8*s.* 10*d.*, the amount for each child, calculated on the average daily attendance, being £2 6*s.* 7*d.*

Scholarships, Exhibitions, &c.

The expenditure on account of the Council of Education (including £400 for two University Scholarships) was £711 16*s.* 8*d.*; and for Exhibitions tenable at the higher schools in the Colony, awarded partly by the Council and partly by the Board of Education, £565 19*s.* 9*d.*

Friendly Societies.

In regard to Friendly Societies I shall only remark that the number of those which filed returns, as required by the law, was smaller in 1872 than in the previous year; and that it is very desirable, not only for statistical purposes, but also for the protection of the Societies themselves, that the provisions of the Act in this respect should be complied with.

VIII.—Vital Statistics.

Births. During 1872 there were registered the births of 1527 males and 1486 females, together numbering 3013, being a decrease of 40 as compared with 1871. The ratio of males to females was as 102·76 to 100. The birth-rate per 1000 of population in 1872 was 29·27.

Deaths. The number of Deaths registered in that year was 1411, of which 833 were those of males, and 578 of females. The death-rate, including 5 convicts under punishment at Port Arthur, whose deaths were not registered, was 13·76 per 1000, being 0·45 in excess of the rate in 1871, (13·31), which was the lowest of any year, with the exception of 1865. The deaths of children under one year were at the rate of 21·69 per cent. of the whole number of deaths registered.

It is worthy of mention that two deaths were those of persons of 100 years and upwards, and ten of persons between 90 and 100, 55 being between 80 and 90.

The 1411 deaths registered were classed as follows:—

		Males.	*Females.*
I.—Zymotic.	Miasmatic Diseases	91	111
	Enthetic	4	2
	Dietic	7	5
	Parasitic	7	2
		109	120
II.—Constitutional.	Diathetic	53	35
	Tubercular	82	71
		135	106
III. Local.	Diseases of the Nervous System	145	89
	Organs of Circulation	54	28
	Respiratory System	93	58
	Digestive Organs	44	41
	Urinary Organs	20	8
	Organs of Generation	—	5
	Locomotive System	1	1
	Integumentary System	4	—
		361	230
IV.—Developmental.	Of Children	19	12
	Of Adults	—	14
	Of Old Persons	94	44
	Diseases of Nutrition	25	17
		138	87
V.—Violence.	Accident or Negligence	67	22
	Homicide	5	—
	Suicide	6	—
		78	22
	Unspecified causes	12	13

In the Hospitals (not including that for Insane persons), 1361 cases were treated during the year, and there occurred 164 deaths, being at the rate of 12·05 per cent., against 14·20 per cent. in 1871. At the Queen's Asylum 326 cases were treated (the average daily number through the year being 246½) without any death.

At the Penal Establishment, Port Arthur, the mortality—calculated on the average daily number—was 4·80 per cent.; at the Cascades, adults, 10·20 per cent., children, (average age 5), 11·76 per cent.; at the Gaol, Launceston, adults, 2·83 per cent.; at the Invalid Depôt, Launceston, (average age 69), 21·09 per cent.; at the Invalid Depôt, Brickfields, (average age 70), 10·94 per cent.; at the Hospital for Insane, New Norfolk, (average age 45), 6·45 per cent.

Meteorology.

Turning to the Meteorological Tables, it appears that at Hobart Town the mean height of the barometer in 1872 was 29,837 inches; temperature, 57·34; diurnal range, 21·87; solar intensity, 93·30; terrestrial radiation, 42·16; humidity of air, 0·71; elastic force of vapor, ·334; ozone, 7·64; wind-force, for the month, 60·47 lbs. per square inch. The total rain-fall in the year was 31·76 inches, being 9·05 above the 30 years' average; and the number of days on which rain fell, 160, being 20 above the average. The mercury was lower, the temperature higher, the diurnal range greater, solar intensity, radiation, and (somewhat strangely) humidity were lower; elastic force of vapor and ozone in excess of the average.

Conclusion.

On the whole, we have found an improvement, as compared with the previous year, in the Imports and Exports; in prices of home produce; in the number of trades and industries; in the amount of money deposited in the Banks; in the number of letters and packets which passed through the Post Office, and in the number and amount of Money Orders; in the business of the Telegraph Office; and in the sales and rental of Crown lands. On the other hand, there was a decrease in the Revenue. But a change has already taken place in this respect, and the receipts since the close of 1872 have risen considerably. The Revenue of 1873 may therefore be expected to contrast favorably with that of the previous year. There was also a decrease in shipping.

The improvement seems to be due principally to the increase in both quantity and price of Wool, to the increase in Hops, and to a good harvest and better prices for produce. Harvests are uncertain, since they depend upon the seasons; and it is therefore very desirable that we should have some less precarious source of income, such as mines and manufactures. I believe that there are many ways in which capital could be profitably employed, but past experience seems to show that our only hope lies in attracting it from abroad.

I have the honor to be,
Sir,
Your most obedient Servant,

E. C. NOWELL, *Government Statistician.*

		Pastrycooks & Confectioners.	30		
		Ditto, Journeymen	28	TOTAL	33,014
		Pianoforte Manufacturers	3		
		Printers	12		

NOTE.—In a few instances, such as Carpenters, Painters, Shoemakers, Gardeners, &c., the number of Master Tradesmen may be somewhat in excess of the real number as compared with Journeymen Tradesmen, but this arises from the impracticability of distinguishing in many cases between the two classes: in all cases where they could be ascertained to be Journeymen they have been so classified.

RETURN showing the Quantity and Value of OIL *and* BONE *produced by Vessels belonging to the Port of* HOBART TOWN *entered inwards during the Year* 1872.

VESSELS EMPLOYED.				PRODUCE.			
Number.	*Tonnage.*	*Crews.*		*Black Oil.*	*Sperm Oil.*	*Whalebone.*	*Value.*
		Men.	Boys.	Tuns.	Tuns.	lbs.	
12	3070	311	—	13½	339	—	£27,420

T. T. WATT, *Registrar.*

COAL.

RETURN of the Quantity and Value of COAL *raised in the Colony during the Year* 1872.

LOCALITY OF MINES.	NO. OF TONS RAISED.	AVERAGE PRICE PER TON.	VALUE OF COAL RAISED.
		£ s. d.	£ s. d.
New Town	1221	0 14 3	915 15 0
Seymour	1520	0 16 0	1216 0 0
Port Sorell (River Don)	2000	0 12 0	1200 0 0
Tasman's Peninsula	3400	1 3 0	3910 0 0
TOTAL	8141	—	7241 15 0

The above particulars were obtained from the Returns of the Superintendents of Police; those referring to the Mines at Tasman's Peninsula from the parties working them. The price at the latter appears to include freight and cartage.

E. C. NOWELL, *Government Statistician.*

Ores of all kinds of Metals.
Gold Dust, Gold Bars, Bullion, and Coin.
Coir Bristles and Hair unmanufactured.
Broom Heads and Stocks partly manufactured for brush-making purposes.
Jars of Glass or of Earthenware, specially imported for Jam.
Unmanufactured Tin and Tin Plates.
Unmanufactured Steel of all kinds.
Rod, Bar, Hoop, Sheet, Plate, and Pig Iron, and Pig Lead, Share Moulds, and Mould Boards.
Epsom Salts, Citric Acid, Sulphuric Acid, Muriatic Acid, Carbolic Acid, Chloride of Lime, and Carbolate of Lime.
Haircloth for Hopkilns.
All empty Casks, Cases, Boxes, and Bags, certified by ship's manifest as returned having been used in the export of Tasmanian Produce.
All Goods the produce of Tasmania.
All Goods imported for the use of Her Majesty's Government, and Wines and Spirits for the use of Her Majesty's Military Officers serving on full pay in this Colony, under such regulations as the Governor in Council may from time to time cause to be published in the *Gazette*.

Drawbacks.

There is allowed upon the exportation of the following articles and goods imported into the Colony; viz.—Wine, tea, sugar, coffee, cocoa, chicory, currants, raisins, dates, rice, hops, malt liquors, candles, wax and composition, ginger, pepper, sago, soda crystals, sulphur, white lead, sheet lead, Barcelona nuts, mustard, manufactures of silk, cotton, linen, and wool, and all articles manufactured therefrom; drapery, haberdashery, hosiery, millinery, furs, hats, boots, shoes, woolbags, and cornsacks, being in the original packages in which the same were imported, a drawback of the Duty paid thereon, provided always that proof be made to the satisfaction of the Collector that the full duties due on importation have been paid; and upon the exportation of jam, packed in jars or tins only, manufactured in the Colony, a drawback of two pounds eight shillings for every ton net weight of jam: provided that the exporter or manufacturer gives notice in writing to the Collector of his intention to pack jam for export; and the Collector is required upon the receipt of such notice, either himself or by an officer of Customs appointed by him for such purpose, to view such jam, and also to seal the case or cases in which such jam is packed.

No drawback is allowed upon the exportation of jam in any quantity less than one ton, or on any other articles or goods entered for drawback unless the Duty on any one of such articles or goods amounts to Five Pounds, and unless such goods are shipped within three years from the day of importation thereof, or in the case of the exportation of jam manufactured in the Colony, within one year from the time when the exporter shall declare the same to have been manufactured, or in the case of malt liquors within one year from the day of importation thereof: and any person making such declaration falsely in any particular is subject to a penalty of not less than One hundred Pounds.

Drawback of Duty is allowed upon Carriages imported by Visitors for their private use, upon re-shipment within six calendar months from date of inward entry; upon silver plate imported by the owner for his own use on exportation at any time; a drawback of sixpence per 100 lbs. is also allowed on export of malt made from imported barley, provided Duty has been paid on such barley within three months before the date of exportation.

	Conveyance, whether grant, disposition, lease, assignment, transfer, release, renunciation, certificate, or instrument under *The Real Property Act*, or of any other kind or description whatsoever, *upon the sale* of any lands, tenements, rents, annuities, or other property real or personal, or of any right, title, interest, or claim in, to, out of, or upon any lands, tenements, rents, annuities, or other property, that is to say, for and in respect of *the principal or only deed, instrument, or writing* whereby the lands or other things sold shall be granted, leased, assigned, transferred, released, renounced, or otherwise conveyed to or vested in the purchaser or purchasers, or any other person or persons by his, her, or their direction.					
	Where the purchase or consideration money expressed in or upon the principal or only deed, certificate of title, instrument, or writing of conveyance shall not exceed £100	0	5	0		
	And where the purchase or consideration money shall exceed £100, then for every additional £50 and also for any fractional part of £50	0	5	0		

Authority under which levied, or by which legalised.	*Specification of Taxes, Duties, Fees, &c.*	*Authority under which originally established.*	*At what Period.*
34 Vict. No. 2.	NOTE.—The purchase or consideration money is to be truly expressed and set forth in words at length in or upon every such principal or only deed or instrument of title or conveyance. And where any lands or other property of different tenures or holdings, or held under different titles, contracted to be sold at one entire price for the whole, shall be conveyed to the purchaser in separate parts or parcels by different deeds or instruments, the purchase or consideration money shall be divided and apportioned in such manner as the parties shall think fit, so that a distinct price or consideration for each separate part or parcel may be set forth in or upon the principal or only deed or instrument of conveyance relating thereto, which shall be charged with the said *ad valorem* duty in respect of the price or consideration money therein set forth. And where any lands or other property contracted to be purchased by two or more persons jointly, or by any person for himself and others, or wholly for others, at one entire price for the whole, is conveyed in parts or parcels by separate deeds or instruments to the persons for whom the same is purchased for distinct parts or shares of the purchase money, the principal or only deed or instrument of conveyance of each separate part or parcel, shall be charged with the said *ad valorem* duty in respect of the sum of money therein specified as the consideration for the same. But if separate parts or parcels of such lands or other property are conveyed to or to the use of or in trust for different persons in and by one and the same deed or instrument, then such deed or instrument shall be charged with the said *ad valorem* duty, in respect of the aggregate amount of the purchase or consideration moneys therein mentioned to be paid or agreed to be paid for the lands or property thereby conveyed. And where any person having contracted for the purchase of any lands or other property, but not having obtained a conveyance thereof, shall contract to sell to any other person, and the same shall in consequence be conveyed immediately to the sub-purchaser, the principal or only deed or instrument of conveyance shall be charged with the said *ad valorem* duty in respect of the purchase or consideration money therein mentioned to be paid or agreed to be paid by the sub-purchaser. And where any person having contracted for the purchase of any lands or other property, but not having obtained a conveyance thereof, shall contract to sell the whole or any part or parts thereof to any other person or persons, and the same shall in consequence be conveyed by the original seller to different persons in parts or parcels, the principal or only deed or instrument of conveyance of each part or parcel thereof shall be charged with the said *ad valorem* duty in respect only of the purchase or consideration money which shall be therein mentioned to be paid or agreed to be paid for the same by the person or persons to whom or to whose use or in trust for whom the conveyance shall be made without regard to the amount of the original purchase money. And in all cases of such sub-sales as aforesaid the sub-purchasers, and the persons immediately selling to them, shall be deemed and taken to be the purchasers and sellers within the intent and meaning of the provisions of this Act relating to the *ad valorem* duties on conveyances on the sale of property thereby imposed. But where any sub-purchaser shall take an actual conveyance of the interest of the person immediately selling to him, which shall be chargeable with the said *ad valorem* duty in respect of the purchase or consideration money paid or agreed to be paid by him, and shall be duly stamped accordingly, any deed or instrument of conveyance to be afterwards made to him of the property in question by the original seller shall be exempted from the said *ad valorem* duty, and be charged only with the ordinary duty on deeds or instruments of the same kind, not upon a sale. And where any lands or other property separately contracted to be purchased of different persons at separate and distinct prices shall be conveyed to the purchaser, or as he shall direct in and by one and the same deed or instrument, such deed or instrument shall be charged with the said *ad valorem* duty in respect of the aggregate amount of the purchase or consideration moneys therein mentioned to be paid or agreed to be paid for the same. And where any lands or other property shall be sold and conveyed in consideration wholly or in part of any sum of money charged thereon by way of mortgage or otherwise, and then due and owing to the purchaser, or shall be sold and conveyed subject to any mortgage, bond, or other debt, or to any gross or entire sum of money to be afterwards paid by the purchaser, such sum of money or debt shall be deemed the purchase or consideration money, or part of the purchase or consideration money, as the case may be, in respect whereof the said *ad valorem* duty is to be paid.	27 Vict. No. 38.	24 Sept. 1863.

Authority under which levied, or by which legalised.	*Specification of Taxes, Duties, Fees, &c.*	£ s. d.	*Authority under which originally established.*	*At what Period.*
34 Vict. No. 2.	And to prevent doubts respecting what shall be deemed the principal deed or instrument of conveyance in certain cases, it is declared : That where *upon the sale of any annuity or other right not before in existence* the same shall not be created by actual grant or conveyance, but shall only be secured by bond, warrant of attorney, covenant, contract, or otherwise, the bond or other instrument by which the same shall be secured, or some one of such instruments if there be more than one, shall be deemed and taken to be liable to the same duty as an actual grant or conveyance. And where there shall be several deeds, instruments, or writings for completing the title to the property sold, such of them as are not liable to the said *ad valorem* duty shall be charged with the duty to which the same may be liable under any general or particular description of such deeds, instruments, or writings contained in *The Stamp Act*. And where *in any case not hereby expressly provided for* of several deeds, instruments, or writings a doubt shall arise which is the principal, it shall be lawful for the parties to determine for themselves which shall be so deemed, and to pay the said *ad valorem* duty thereon accordingly; and if necessary the other deeds, instruments, or writings on which the doubt shall have arisen shall be stamped with a particular stamp for denoting or testifying the payment of the *ad valorem* duty upon all the deeds or instruments being produced and appearing to be duly stamped in other respects. And where there shall be duplicates of any deed or instrument chargeable with the said *ad valorem* duty, one of them only shall be charged therewith, and the other or others shall be charged with the ordinary duty on deeds or instruments of the same kind not upon a sale, and on the whole being produced duly stamped as hereby required, the latter shall also be stamped with a particular stamp for denoting or testifying the payment of the said *ad valorem* duty. *Exemptions from the preceding Duties on Conveyances upon the Sale of Lands, &c.* All transfers of Debentures of the Colony. All leases except so far as the same may be in consideration of any fine or forgift. All grants and conveyances of Waste Lands of the Crown. All duplicates of instruments under *The Real Property Act*. All transfers of any Mortgage to the Trustees of any certified Friendly Society. Declaration of Use or Trust in writing, not being a Deed or Will ..... 0 5 0 Deed.—For every deed and for every certificate or document of title under *The Real Property Act*, where not subject to *ad valorem* duty under *The Stamp Act* ..... 0 5 0 Exemption.—Every deed upon which *ad valorem* duty is payable, and duplicates of instruments under *The Real Property Act*. Denoting Stamp or Certificate as in *The Stamp Act* mentioned ..... 0 5 0 Draft or Order on a Banker for the payment of any sum of money ..... 0 0 1 And the following instruments shall, amongst others, be deemed and taken to be Drafts or Orders for the payment of money within the intent and meaning of *The Stamp Act*, and shall be chargeable accordingly with the Duty imposed by *The Stamp Act;* viz.— All documents or writings usually termed Letters of Credit, or whereby any person to whom any such document or writing is or is intended to be delivered or sent shall be entitled or be intended to be entitled to have credit with, or in account with, or to draw upon any Bank for or to receive from such Bank any sum of money therein mentioned. *Exemptions.* All Drafts or Orders for the payment of money charged with any Duty other than the above. All Drafts and Orders for the payment of money to the bearer or order on demand drawn by or upon any Savings' Bank. All Drafts or Orders for the payment of money drawn by the Colonial Treasurer, or by the Registrar of the Supreme Court, or any Clerk of the Peace for the payment of sums ordered to be paid by them for Jurors and Witnesses' expenses.		27 Vict. No. 38.	24 Sept. 1863.

	If the amount secured shall exceed £100, for every additional £50 and also for any fractional part of £50	0 2 6		
	Exemption from Duty as Transfers.—Transfer of Securities held by Friendly Societies.			
	Provided always, that where several distinct deeds or instruments falling within the description of any of the instruments hereby charged with the said *ad valorem* duty on mortgages shall be made at the same time for securing the payment or transfer of one and the same sum of money, the said *ad valorem* duty shall be charged only on one of such deeds or instruments, and if required for the sake of evidence, all the rest of such deeds or instruments shall be also stamped with the same particular stamp for denoting or testifying the payment of the said *ad valorem* duty on all the said deeds or instruments being produced duly stamped with the duties charged thereon.			
	And where there shall be duplicates of any deed or instrument chargeable with the said *ad valorem* duty on mortgages, one of them only shall be charged therewith; and on the whole being produced, duly stamped as by law required, the latter shall also be stamped with a particular stamp for denoting or testifying the payment of the said *ad valorem* duties.			
	Provided also that duplicates of instruments under *The Real Property Act* shall not require to be stamped with either a denoting or deed stamp.			
	Exemptions from the said ad valorem *duty on Mortgages, &c., but not from any other duty to which the same may be liable.*			
	Any deed or other instrument made for the further assurance only of any estate or property already mortgaged, pledged, or charged as a security by any deed or instrument which shall have paid the said *ad valorem* duty.			
	Any deed or instrument made as an additional or further security for any sum or sums of money, or any Debenture already secured by any deed or instrument which shall have paid the said *ad valorem* duty; but if any further sum of money or Debentures shall be added to the principal money or Debenture already secured, or shall be thereby secured to any other person, the said *ad valorem* duty shall be charged in respect of such further sum of money or Debenture.			
	And if necessary for the sake of evidence the deeds and instruments hereby exempted from the said *ad valorem* duty shall be stamped with a particular stamp for denoting or testifying the payment of the said *ad valorem* duty upon all the Deeds and Instruments relating to the particular transactions being produced,			

Authority under which levied, or by which legalised.	*Specification of Taxes, Duties, Fees, &c.*	£ s. d.	*Authority under which originally established.*	*At what Period.*
34 Vict. No. 2.	and appearing to be duly stamped with the duties to which they were liable.		27 Vict. No. 38.	24 Sept. 1863.
	Mortgage, with the conveyance of the equity or right of redemption or reversion or other matter in the same deed; viz.—			
	Where any deed or writing shall operate as a mortgage or other instrument charged with the *ad valorem* duty on mortgages, and also as a conveyance of the equity or right of redemption or reversion of any lands, estate, or property therein comprised to or in trust for and according to the direction of a purchaser, such deed or writing shall be charged not only with the said *ad valorem* duty on mortgages, but also with the *ad valorem* duty charged on a conveyance upon the sale of any property: but where the equity or right of redemption or reversion shall be thereby conveyed or limited in any other manner, such deed or writing shall be charged only as a mortgage.			
	And in all other cases where a mortgage or other instrument hereby charged with the *ad valorem* duty on mortgages shall be contained in one and the same deed or writing with any other matter or thing (except what shall be incident to such mortgage or other instrument), such deed or writing shall be charged with the same duties as such mortgage or other instrument and such other matter or thing, would have been separately charged with if contained in separate deeds or writings.			
	Policy of Assurance or Insurance, by whatever name called, and whether issued in or out of this Colony, whereby any sum of money shall be assured to be paid on the death of any person, where the sum insured does not exceed £250, for every £100 and any part of £100 so insured	0 0 3

Proportion of Net Expenditure chargeable to..... { Colonial Funds..... £3710 3 10
Imperial Funds 59 16 5
£3770 0 3

* In making this calculation fractions have been taken into account, although for convenience sake they are omitted in the previous columns.

NOTE.—In the expenditure is included a sum of £20 4*s.* 4*d.* expended on extra provisions to prisoners employed at the Battery, One Tree Point, and at the New Cemetery, and which might fairly be questioned as constituting a prison charge; as also an extraordinary charge of £204 8*s.* for repairs and alterations to buildings which might fairly be not confined to this year. In no instance has any credit been taken for the labour of gangs supplied the Public Departments. Had such been done, the Establishment would have been found self-supporting.

THOS. REIDY, *Superintendent.*

[a] Includes £16 5*s.* 4*d.*, contribution from Great Lake Road Trust for work done in that District.
[b] Includes 14*s.* in Collector's hands.
[c] On private property and Crown lands respectively.
[d] Including loan of £100.
[e] The last Return showed a balance of £114 5*s.* 6*d.*, which was altered by the Auditors to £39 4*s.* 7*d.* overdrawn, the Trustees having included a sum of £153 10*s.* 1*d.* which remained uncollected.
[f] The discrepancy between the balance and that given in last Return is explained to be considerably outstanding cheques. The balance above shown appears to be correct.
[g] According to the previous Return the balance was only £7 5*s.*
[h] Proclaimed 25th March, 1872.
[i] Appointed for the purpose of dealing with Bye-roads only.
[k] Proclaimed 15th April, 1872.
[l] There is a discrepancy of 3*s.* 3*d.* between this balance and that given in last Return, which is attributed to some small items having been included in the accounts after they were made up.
[m] Including £115 from Selby Board of Works, and £5 4*s.* 5*d.*, special contribution, &c.
[n] Including £30 transferred from Board of Works.
[o] Rates, £99 1*s.* 6*d.*; Tolls, £297 18*s.* 11*d.*; Interest, £5 2*s.*
[p] Interest, £468 10*s.*

The Returns from Leven, Sandfly and Brown's River, and Upper Meander, have not been furnished.

* This balance is the same as that given in last Return, but, even after reference to the Chairman, it is very doubtful how far it and the balance in the last column are correct.

The balances for and against the Trusts are denoted by the signs *plus* (+) and *minus* (—) respectively.

[Compiled from Returns furnished by the respective Trusts.]

E. C. NOWELL, *Government Statistician.*

MEMO.—The Returns hitherto furnished of the Area of Crown Land under Rental have, for many years past,* shown a considerable excess beyond the actual quantity under lease. It is difficult now to account for the very great discrepancy; but it may have arisen, in some measure, from the fact that, *after* the annual Returns are made up, lists of persons who have failed to pay rent are received from the Colonial Treasury, and they have not been taken into consideration when the Returns for the following year have been prepared.

* Up to, and including, 1866.

CROWN LANDS—*continued.*

RETURN of Country Lots of CROWN LAND *sold during the Year* 1872.

E. C. NOWELL, *Government Statistician.*

REPORTS, or Extracts from Reports, of Collectors of Agricultural Statistics, 1872–3.

BOTHWELL.

I HAVE the honor to forward herewith the Stock and Crop Returns up to 31st March, 1873, which I believe to be perfectly correct.

There are no material changes in the agricultural portion of the District, and the yields generally have been satisfactory.

With regard to Sheep and Cattle, in the former there has been an increase since last year, in the latter not materially so; but both Cattle and Sheep in the District appear to be in good sound condition.

Such a thing as Scab (thanks to the working of the Scab Act) is rarely to be found within the Municipality.

T. PERKINS.

BRIGHTON.

THE Stock and Crop Returns for the Brighton Municipality are herewith forwarded; they would have been sent in sooner but I had to call several times at many places for the necessary information. There is no marked improvement in the cultivation of the soil, no new productions, no underground drainage, no new improved machinery, and no marked improvement in the breeding of Live Stock in this District during the past year.

CHARLES WRIGHT, *Collector.*

CAMPBELL TOWN.

IN connexion with the Return of the Stock and Crop of this District herewith forwarded, I have the honor to furnish the following Report:—

This being, as you are aware, almost entirely a pastoral District, there is nothing to be said upon heads 1 to 4 as detailed in your instructions under date 8th March, 1873.

The improvement in the breeding of Sheep continues steadily to increase, and a considerable amount of this stock has been purchased by Flockowners from the neighbouring Colonies, for breeding purposes, at very high rates.

The season has been remarkably favourable during the latter portion of the year; but little increase appears in the Crops as compared with last year, owing to the continuance of wet weather prevailing during the winter, which prevented some of the low-lying lands from being cultivated. The Apple Crop has been very seriously injured by the worm,—very few gardens having escaped this pest. The Pears were most abundant, but were also a good deal injured by the worm.

This Return will appear to be nominally less than that for last year; this is owing to my having omitted the names of all persons who possess neither Stock nor Crop.

T. H. POWER.

CLARENCE.

THE Return of Grain and Stock for the past year exceeds that of 1871 and 1872 to a great extent, and would have more so had the rust have not been so prevalent,—acres of Wheat being scarcely worth the reaping.

The farmers had the benefit at the early part of the season of Messrs. Chipman's Steam Threshing Machine, which proved a great boon till it was unfortunately destroyed by fire; they have, however, sent to England to have it replaced.

The late Intercolonial Ploughing Match has done much towards directing the attention of our farmers to a better style of farming implements.

F. PEDDER, *Collector.*

DELORAINE.

I HAVE nothing to report as to "New Productions," except that, owing to the facilities afforded by the Railway, a great quantity of Bark has been procured in this District during the past year and sent to Launceston for export.

With regard to "Machinery," with the exception of Reaping Machines, nothing new has been introduced here.

The Grain Crops this season, as you will perceive by the Returns, have turned out very well on the whole, and the Root and Potato Crops also average well.

Owing to the high prices ruling for Cattle and Sheep, many of the farmers are turning their attention to breeding Stock, finding it more remunerative than Agriculture.

EDWARD WILLIAMS, *Superintendent of Police.*

EVANDALE.

I AM glad to be able to report that the Crops this season have been very good, both as regards quantity and quality.

Pastoral pursuits appear also to be looking up,—there being an increase of nearly 23,000 Sheep on last year's returns. As far as my own knowledge goes, which is but limited, I do not think there is much improvement in the mode of agricultural farming, and rotation of Crops is seldom heard of.

R. MARRIOTT, *Superintendent.*

FINGAL.

YOU will find in most of the items a considerable increase over last year's Returns, partly to be accounted for by the generally favorable Harvest and also by the increased number of returns—137—on the present list above those on last year's.

In some cases, especially in the neighbourhood of Cullenswood, the small farmers suffered considerable loss through wet weather at the time of Harvest, and many of the returns of the "total" yield would appear, without this explanation, to be merely the return per acre. In many places the barley crops were much injured by the grub.

The past season has been a favorable one for fruit, and the returns show a considerable increase over last year. In the lower part of the District (by Ellerslie, &c.) the grub has attacked the apples, rendering them almost valueless: this disease appears to be spreading, but as yet it has not reached Fingal nor the country above it.

In one item, "Other Cultivated Lands," there is a considerable discrepancy between this year and the previous one. I have a very few acres under this heading, although the question has been regularly asked. I can only account for it by supposing that land—of which there is a good deal in the District not cropped, but covered with thistles—has been previously entered under this heading. I have not done so, however, considering that such land could not be rightly considered "cultivated."

I enclose the Return for Agricultural Machinery, which is a very small one, and I cannot report any new industry or improved method of cultivation.

In making these enquiries through this extensive District, I have met with every kindness and hospitality from the settlers.

WILLM. K. MORRIS.

FRANKLIN.

YOU will perceive there is a slight falling off in the total number of acres in cultivation as compared with last year's returns, but I think this is attributable in a great measure to several small farms having lapsed into a state of nature. The average produce per acre will, I think, show a slight increase.

In live stock there is little alteration to be noticed, the settlers here not devoting any attention to breeding purposes further than for home consumption; neither can I report any improvement in the mode of cultivation, irrigation, or agricultural machinery: in fact the present system of cultivating the land similar to other thinly populated bush districts,—viz. removing the undergrowth and ringing the standing timber,—will for some years prevent machinery from being generally used, except in the case of some few farms at Victoria, Upper Huon. Before collecting the present Statistics, it struck me that a very important item was omitted; viz., small fruit—that is Raspberries, which are grown here in immense quantities: indeed the small settler looks upon the ripening of this crop as a sort of harvest. During this season of the year there are generally several Jam Manufactories in operation (this year three) independently of great

quantities which are sold to buyers from Hobart Town. I therefore, according to your general instructions, directed my subordinates when collecting Returns to get from each fruit grower the number of pounds, and find that the total quantity *as sold* amounts to one hundred and eight tons and a half (108 tons 11 cwt.): this at an average of one penny three farthings per lb. ($1\frac{3}{4}d.$) would amount in round numbers to the sum of £1774. This distributed amongst the settlers generally near the end of the year, enables them to lay in supplies which they otherwise would be unable to obtain; and I think that, notwithstanding the many disadvantages which the settlers here have to contend with, the district will compare favorably with any other similar part of the Colony. Jam manufactured in the District—75 tons: this of course does not include private consumption.

JNO. LAMBERT, *Chief District Constable.*

GEORGE TOWN.

THE Agricultural pursuits of this District for the past year are very favorable, and producers appear to be satisfied with the returns. There is not a great difference in the number of acres of land under cultivation as compared with last year's returns, but there is a marked difference in the quantity produced from the several descriptions of Crops.

The Live Stock Statistics are also favorable: there appears to be a desire on the part of the owners of Sheep to increase the number of the flocks, owing no doubt to the high price of wool. One large sheep-run (Waterhouse) has been recently stocked with 4000 sheep, (by Mr. Archer the proprietor): this run has for several years been, comparatively speaking, lying idle.

THOS. H. SIMPSON, *Collector.*

GREEN PONDS.

THERE is an increase of about 14,000 bushels of Grain from nearly the same acreage as compared with 1871. The yield would have been larger had it not been for the Rust which attacked nearly all the late sown Wheat.

The mode of cultivation, with few exceptions, is a continuous succession of the same description of Crop on the same land.

Very little fallowing is done among the tenant farmers, as they cannot afford to do it on account of the high rents most of them pay. Drainage is not practised here, although there is a large acreage which could be profitably cropped if drained.

Machinery for agricultural purposes is not much used: no Reaping Machine was used during the late harvest by the farmers, although there are 5 in the district. The reason assigned for their non-use is difficulty in getting men to work them, and having had a plentiful supply of labour, it was considered more economical to reap by hand than with a machine.

There is nothing particular to note in either improvement in the breed of Live Stock or in the getting up of wool in this district. More attention is being paid to artificial grass for the purpose of feeding Stock, about 2000 acres having been laid down in artificial grasses during last year.

Irrigation is neglected in this district, although there are various parts of it where it could be applied at a small cost.

THOS. W. STANWIX, *Collector.*

HORTON.

I HAVE not much to add in the way of Report.—As in that of last year the heading "Permanent Grass" merely represents the feed that grows after cultivation or clearing, which, though often consisting chiefly of weeds, and much interspersed with ferns and other rubbish, is always supposed to have artificial grass for its basis.

There is no attempt at improvement in the method of cultivation.

A good many people have been trying experiments in a small way in the growth of Flax, but they are too poor and too ignorant of the process involved to venture boldly into such an experiment; and the results, so far as they have gone, have not been very encouraging.

I notice in this as well as in other remote districts of a similar character that, notwithstanding that the people are poor, the arts of agriculture backward, profits (if any) very low, and laborers anxious for employment, wages continue at least as high as in the more favored districts to the south. Labor costs at least as much by the week, and more by the day.

The fact is, that there are here no regular employers of labor of the capitalist class. The master of the day is very often the servant of the morrow; and as nobody employs any more labor than his business or domestic necessities imperatively require, the laborer would gain no additional employment by lowering his price. The day-laborer here who expects 5*s.* a day for his labor is worse off than the day-laborer of the south, who is content with 4*s.* on account of the greater difficulty of getting any employment at all for a great part of his time.

There is a marked improvement in the condition of the farmers this year. Better crops and better prices have done good for them in one way, while the trials of the last 2 or 3 years have done good also in enforcing more careful and economical habits.

ARTHUR JAS. OGILVY.

KINGSTON.

1st. New productions—None.

2nd. There is no improvement in the mode of cultivation. Rotation-crop-growing has not come into practice; there is but little fallowing. Artificial manures are not used to any extent, and manuring is as a rule confined to the use of that from the stable, cow-yards, and piggeries.

3rd. There is no underground drainage.

4th. No improved kinds of Machinery or Farm Implements have been brought into use, nor has any increase in employment taken place.

5th. A slight improvement is going on in the breed of Cattle, by the introduction in some instances of Alderney Stock.

6th. Dairy farming and small-fruit-growing are the chief dependence of the farmers, and both pursuits are in much the same state as they have been in for some years past.

E. INNES, *Collector.*

LONGFORD.

THERE are no improvements at present in the District with respect to new productions or pastoral pursuits; there are improvements being made in the underground draining, but the result I am not able to state this time. There are two new implements since the last return, and the Crops in general have been very good in the District.

J. EAST, *Superintendent of Police.*

NEW NORFOLK.

THE general yield all over the District has been good in all descriptions of Crops.

In the crop of Hops for 1873 there has been, with one or two exceptions, an absence of the Spider which is so rapid a destroyer of the Hop; and the frost has not done the plant so much injury this as it did last year.

In root crops, such as Potatoes, Mangels, and Carrots, it is almost impossible to get a fair return of the yield, the season not being far enough advanced for the grower to be able to do otherwise than give the required information by mere guess, but it is believed that the yield will be good.

In agricultural pursuits it is due more to the favorable season than to any improvement in the mode of cultivation that the return in that department shows an increase over that of last year.

In pastoral pursuits the season has been favorable, there being an abundance of feed, and high prices are being obtained for all descriptions of Stock.

In conclusion, I may here take the liberty of stating that the information obtained in answer to my inquiries relative to this Return has in every instance been given with apparent willingness.

JAMES STEVENSON.

OATLANDS.

I HAVE the honor as Collector of the Agricultural and Live Stock Statistics of Oatlands to report—

1. There have been no new productions in Oatlands Municipality worthy of note during 1873.

2. High farming neither obtains much nor finds favor in this District, as practical farmers find that it pays better neither to manure nor fallow much, but instead to get two or three crops from the ground after clearing, and then to lay it down with artificial grass until the land is renovated by the action of time, and then to crop again.

3. Underground drainage is practised on a few farms with good results, and many miles of open drains have been cut since the fluke was so virulent a few years since, with much advantage.

4. Scientific farming is not greatly followed, nor is machinery much used in the District on farms.

5. The high price of wool and meat has induced the pastoral farmer to devote much of his attention to improving the breed of his sheep and cattle, and well-bred sheep and prize cattle have realised of late what are termed fancy prizes.

6. The rabbits have ceased to be the pest they were in 1870 and previous years, owing to the rabbit skins having a recognized value; and rabbiting became a regular pursuit among the laboring poor in 1872 winter, the flesh being used for food.

7. The past season has on the whole been a very good season for the farmer, the gross yield of wheat having been 25,051½ bushels, and that of oats 18,530 bushels, in excess of last year's yield, with 426 tons more hay.

One estate, Lowes' Park, produced 12,300 bushels of wheat, 1430 of barley, and 500 of oats, where not one bushel was grown last year.

8. A doubt is entertained by some as to whether the Scotch thistle is an unmitigated evil and requiring legislation to check it, as the stock will eat it greedily in a dry season.

9. A second growth and discoloration of the grain in the shock in the field has been a drawback to a number of small land selectors at the Bluff in this District, owing to the late crops encountering the first autumnal rains.

WILLIAM GERRAND, *Collector.*

PORT SORELL.

I HAVE the honor to forward herewith the Agricultural Returns for the year, and I have also great pleasure in assuring you that the farming interests generally are very much improved. There are some slight instances of falling off in the yield and of the number of acres in crop, but the increase more than compensates for the losses. The prices are better, there is more foreign capital in circulation, and the prospects of next year look much brighter than they have done for years.

You will observe also that we have made some progress in machinery, a sign of itself sufficient to indicate progress in the agricultural interests.

Great hopes are entertained also of local markets being developed on the North Coast by the opening up and realising upon large mineral deposits, which will entail large expenditure, as the localities where they exist are for the most part surrounded by immense tracts of the most barren description of land.

Great as the increase is, therefore, both in price and yield this year, I hope next year's returns will show even a much more satisfactory state of things in this District than the present.

J. REYNOLDS, *Chief District Constable.*

RICHMOND.

I HAVE no marked improvements to note as having taken place during the year, unless it is steady extension of the area in cultivation for growing hops.

Rust has been very prevalent in the late sown wheat, and has also attacked the mangel crops, not, however, damaging the roots to any great extent.

J. GRIFFITH.

ROSS.

REPORT on the state and prospects of agricultural and pastoral pursuits in the Municipality of Ross.

No new productions or improvements in mode of cultivation, &c.: the District consists almost entirely of pastoral lands.

Some low lands have been drained and others brought under irrigation, much increasing the value for fattening purposes. No fresh machinery or farm implements brought into use.

I am not aware of any improvement in breed of live stock, getting up wool, &c. P. T. Smith, Esq., of Syndal, attempted to steam his sheep before shearing in place of hot water washing, but it was a failure.

W. E. WARNER, *Collector.*

SORELL.

THE only new production which has been introduced on a small scale is Hops, which will bear favorable comparison with any I have seen in the Island.

Sheep, Pigs, and Cattle have increased, while Horses and Goats remain about the same as last year.

I fail to notice any improvement in the mode of agriculture, which seems to be carried on as usual, but there is a slight increase in Machinery (horse power).

The decrease noticeable in the amount of Wheat produced this year as compared with 1872 is not so much to be attributed to the decrease in acreage as to the destructive influence of Rust which destroyed a great many acres. A great deal of grain was also destroyed by the heavy rains during the time of harvest. The same remarks would apply to Apples which have suffered from the effects of fire-blight.

On the whole the season has been favorable, which may be seen from the fact that in such productions as Hay, Potatoes, Peas and Beans, &c., although there is a decrease in the number of acres under cultivation, yet there is a very perceptible increase in the produce.

ROBT. J. HARRIS, *Superintendent of Police.*

SPRING BAY.

HEREWITH I forward Returns of Crop and Stock, which I trust will be found correct, and I am sorry that I was not able to do so sooner. Two persons kept me from completing these Returns till the 21st instant.

There are no improvements in agricultural or pastoral pursuits that I can observe in this District. There is an increase in Sheep over last year of about 6000.

S. MURPHY, *Collector.*

WESTBURY.

HEREWITH I have the honor to forward Agricultural and Live Stock Returns for year ending 31st March, 1873, and in doing so I have much pleasure in reporting favorably of the Agricultural and Pastoral interests of this District for the past year.

We have had an excellent harvest. Average in Wheat about 20 bushels,—an increase of 9 bushels on previous year; Oats, 24¾ bushels per acre, an increase of 9¼ bushels compared with previous year. Under every heading, with few exceptions, there is a marked increase. When labour is scarce in harvest-time Reaping and Mowing Machines are much used in this District. I notice that the Double-furrow Plough is in much use: thereby a saving of a ploughman and one horse is effected. Where a failure in the Grain Crop has taken place I attribute it to want of drainage. If the tenant farmer received such encouragement from his landlord as would enable him to make drains of a permanent nature, in a few years the outlay would well repay. There are no Irrigation Works in this District.

In Sheep there is an increase of 10,000; in Cattle there is also an increase. There has been a steady demand for Sheep and Cattle during the last two years,—very gratifying to Stockowners.

The Melbourne Markets are well supplied with Pigs from this District. Heavy Horses are in good demand both for Melbourne and New Zealand. The demand is so great that you can get almost double the price this year compared with the four preceding years.

The farmers of this District are in better heart this year, and are hopeful of a better future for Tasmania, and so is your humble Servant,

MYLES MAHONY, *Superintendent of Police.*

JAMES BARNARD,
GOVERNMENT PRINTER, TASMANIA.
